Attempt : 1
Total Mark : 10
Marks Obtained : 10

Section 1 : Coding

1. Problem Statement

Monica is interested in finding a treasure but the key to opening is to get the sum of the main diagonal elements and secondary diagonal elements.

Write a program to help Monica find the diagonal sum of a square 2D array.

Note: The main diagonal of the array consists of the elements traversing from the top-left corner to the bottom-right corner. The secondary diagonal includes elements from the top-right corner to the bottom-left corner.

Input Format

The first line of input consists of an integer N, representing the number of rows and columns.

The following N lines consist of N space-separated integers, representing the 2D array elements.

Output Format

The first line of output prints "Sum of the main diagonal: " followed by an integer, representing the sum of the main diagonal.

The second line prints "Sum of the secondary diagonal: " followed by an integer, representing the sum of the secondary diagonal.

Refer to the sample output for formatting specifications.

Sample Test Case

Input: 3
1 2 3
4 5 6
7 8 9

Output: Sum of the main diagonal: 15
Sum of the secondary diagonal: 15

Answer

```
import java.util.Scanner;
import java.util.Arrays;
class main
{
   public static void main(String[] args)
   {
      Scanner sc = new Scanner(System.in);
      int a=sc.nextInt();
      int [][]arr=new int [a][a];
      for(int i=0;i<a;i++)
      {
         for(int j=0;j<a;j++)
         {
            arr[i][j]=sc.nextInt();
         }
      }
      int sum1=0;
      for(int i=0;i<a;i++)
```

```
        {
            for(int j=0;j<a;j++)
            {
                if(i==j)
                {
                    sum1=sum1+arr[i][j];
                }
            }
        }
        System.out.printf("Sum of the main diagonal: %d\n",sum1);
        int sum2=0;
        for(int i=0;i<a;i++)
        {

                sum2=sum2+arr[i][a-1-i];

        }
        System.out.printf("Sum of the secondary diagonal: %d",sum2);

    }
}
```

Status : Correct **Marks : 10/10**
